FAST TRACK 2+2 3000 SERIES DRIVE-THRU TIMER

Speed into the Future with the Fast Track 2+2 3000 Series PC Based Drive-Thru Timing System

- Directly connects to an in-store Windows PC with included Fast Track PC Software
- Easily connects to your network with optional Ethernet Network Card for in-store and remote access
- Download data reports, upload parameters or view in real-time
- Data collection system with no keyboard eliminates employee intervention, parameter manipulation and reduces service calls
- Printerless timer system eliminates replacement, repair and paper costs. Reports are easily generated and printed from the PC by using Fast Track PC Software

Motivate Your Crew with the Remote Displays of Choice!

Displays in minutes and seconds or seconds only

Counts the time and then flashes the average when drive-thru is idle, or flashes only the average time

2-color display counts time initially in green, and then changes to red after goal is exceeded

Two Color (green/red) 2 sided Timing Display

Optional Percentage Display shows percentage of cars that have met speed of service goal

Green when percentage equals or exceeds goal, red when percentage is less than goal

Dedicated to displaying percentage continuously and includes crew friendly % sign

Two Color (green/red) 2 sided Percent Display

Remote Displays Actual Size: 5"(12.7cm)H x 9"(22.9cm)W x 2.25"(5.7cm)D
